SMOOTH OPERATOR

Sire: Smooth Landing

Dam: Rambo 23-8 x Soundwave 2-2

Stress: Negative
Bred By: Warren Bros.

In Season: \$150
Summer Price: \$50

Smooth Operator's dam is debatably the most incredible first parity sow we have ever seen. Once this 16 litter hit the chip barn Rambo 23-8 went straight to the pampered sow pen with our most proven and elite sows. Dad knows this pen as, "the please don't kill pen." His grand dam Soundwave 2-2 has always been one of Derek's all-time favorites. He even had his senior pictures taken with her. Personally, I think he likes her so much because dyslexic Derek can't screw up her ear notch.

We have been hyped up on *Smooth Operator* since he was fresh off the teat. He puts all the extras into a killer design. What takes *Smooth Operator* to that elite level is his extra length of hip, high tail placement, flawless hock set, extreme squareness and flexibility. His hip and hindleg isn't the only thing to drool over.

Smooth Operator hits you with a broad chest floor and extra elevation at the point of his shoulder. He is super clean fronted with added extension. He has tremendous top shape that is amplified by the curvature of his fore rib. *Smooth Operator* hits every tune without missing a beat.

Thank you for taking time to check out Warren Bros. Genetics. We are extremely excited to be able to offer semen on a group of boars who we feel are as good, if not better than, any of the boars that we have produced the past few years. In addition to the boar stud, we continue to sell show pigs and breeding stock.

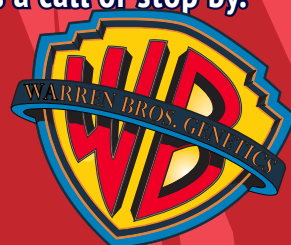

Having been on all sides of the show pig business, we understand the importance of producing a high-quality product. We have invested our resources in the most up to date semen processing technologies while also adhering to the highest quality semen handling guidelines. This approach gives our customers confidence to get sows bred when they need to in order to produce large litters during the critical time frames demanded by our industry.

Unlike most manure spreader manufacturers, we stand behind everything we produce. Our business philosophy is simple, "we will not sell a pig that we wouldn't be willing to show and we will not sell semen on boars that we wouldn't use ourselves."

We make ourselves available to our customers at all times, so give us a call or stop by.

Thank You!

Seth and Derek
